

**CHINA**  
**Village Clinics & County Hospital**  
**RAWCS #36-2000/2001**

*Description:-* The Rotary Club of West Wollongong, NSW, D9750, has a project to assist village clinics, in this newly opened up area for Rotary projects, the poverty stricken Binxian County, Shañanxi Province, China, to upgrade the pitifully inadequate medical clinics and delivery rooms.

*Further Information:-* Most village clinics and the hospital lack specialised rooms, heating, medicines, sterilisation and testing equipment. The training and knowledge of staff is good but the facilities are sub standard. All donations are strictly administered by the China Association for International Understanding (CAFIU). All donors will receive reports and permanent on-site recognition. A group of Rotarians will make an annual visit and inspect every aspect of the project.

*Cost:-* A\$300 (or multiples), and donations of medical equipment.

*Donations and Copies of Correspondence:-*

larger villages. Costs vary slightly due to height difference, the southerly or northley aspect and the size of the holding tanks required. Water to the villages will surely break the poverty cycle, all donations are strictly administered by the China Association for International Understanding (CAFIU). Groups of Australian Rotarians have made regular visits to China, hosted by CAFIU, during which, contacts were established.

Annual inspections by Rotarians will ensure viability of the project and monitor the proper allocation of funds. All donors will receive progress reports and permanent on-site recognition.

*Cost:-* A donation of A\$500 (or multiples) will be applied immediately until the project is completed, total cost app A\$35,000 ñ includes valley and village holding tanks, piping, pumping equipment, distribution piping and electrical connection.

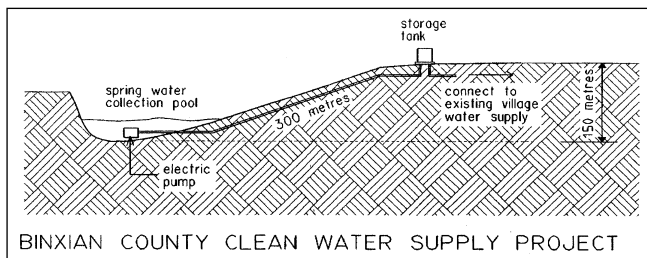

*Donations and Copies of Correspondence:-*

**CHINA**  
**Binxian County – Pumping Stations**  
**RAWCS #37-2000/2001**

*Description:-* The Rotary Club of Burwood, NSW, D9690, is proposing a new project in the poverty stricken Binxian County, Shañanxi Province, China, to install pumps to deliver spring water from the deep valley to the villages. Currently it is an arduous four hour round trip to fetch two buckets of water.

*Further Information:-* The County has 303,000 inhabitants, many of the small villages have no water supply and villagers are constantly involved in carrying water used only for human consumption. Economic development is difficult because of the lost time which could be devoted to breeding extra animals and in a few cases where water is available, crop irrigation. The Binxian County is changing its priority to fruit growing which lends itself to drip irrigation. The County is providing the survey and design for the project. The water supply and equipment is available, and proven successful by installations in several

**CHINA**  
**Binxian County – Primary Schools**  
**RAWCS #38-2000/2001**

*Description:-* The Rotary Club of Crows Nest, NSW, D9680 is proposing a new project in the poverty stricken Binxian County of the Shaanxi Province in China to upgrade one or two more Primary Schools.

*Further Information:-* In Binxian County the Primary Schools cater for Kindergarten and grades 1 – 6. There are 340 schools of different sizes most of them are small village schools with 100 or less students. Many of the school buildings are in poor condition. They were built in the 1970s of mud brick and wood and in some cases roofs and walls have collapsed. There is a need to build new facilities in concrete and fired bricks and/or repair the better ones of the old buildings.

Desks and benches for teachers and students alike need to be replaced and/or upgraded. Books are scarce and normally the only other item of instruction is the blackboard. More books and teaching aids and tools are needed to improve the level of instruction. Instruments and equipment for music, sports and arts are non existent but required as well. Further teacher training in seminars is contemplated.

Primary schooling is compulsory, but poor families cannot pay the small costs involved in keeping their children at school and therefore are forced to take them out of school to avoid incurring debt. Therefore we identify such students to sponsor them, should they like to return to school. We give preference to girls since 2/3 of the children taken out of school are girls.

*Cost:-* A contribution of A\$500 or multiples will be applied towards funding of the 2000/2001 projects.

*Donations and Copies of Correspondence:-*

**INDIA**  
**Treatment and Prevention of Blindness**  
**RAWCS #53-2000/2001**

*Description:-* This project is aimed at the prevention and treatment of curable blindness, and is organised by various Clubs in the Rotary Districts of India

*Further Information:-* Eye camps are undertaken during the cooler months, that is from November to March and are normally held over 6 to 7 days. The number of operations per camp is limited to 50 patients so as to ensure the best possible patient care.

Under the supervision of the participating Districts, individual Rotary clubs conduct each eye camp utilising the services of volunteer Rotary doctors.

*Cost:-* The average cost to treat one patient is A\$20 which includes the above items.

The local Rotary clubs will contribute 50% of this cost, so for A\$10 you can provide the gift of sight to an otherwise blind person.

*Donations and Copies of Correspondence to:-*
