

CHINA
Binxian County – Primary Schools
RAWCS #38-2000/2001

Description:- The Rotary Club of Crows Nest, NSW, D9680 is proposing a new project in the poverty stricken Binxian County of the Shaanxi Province in China to upgrade one or two more Primary Schools.

Further Information:- In Binxian County the Primary Schools cater for Kindergarten and grades 1 – 6. There are 340 schools of different sizes most of them are small village schools with 100 or less students. Many of the school buildings are in poor condition. They were built in the 1970s of mud brick and wood and in some cases roofs and walls have collapsed. There is a need to build new facilities in concrete and fired bricks and/or repair the better ones of the old buildings.

Desks and benches for teachers and students alike need to be replaced and/or upgraded. Books are scarce and normally the only other item of instruction is the blackboard. More books and teaching aids and tools are needed to improve the level of instruction. Instruments and equipment for music, sports and arts are non existent but required as well. Further teacher training in seminars is contemplated.

Primary schooling is compulsory, but poor families cannot pay the small costs involved in keeping their children at school and therefore are forced to take them out of school to avoid incurring debt. Therefore we identify such students to sponsor them, should they like to return to school. We give preference to girls since 2/3 of the children taken out of school are girls.

Cost:- A contribution of A\$500 or multiples will be applied towards funding of the 2000/2001 projects.

INDIA
Treatment and Prevention of Blindness
RAWCS #53-2000/2001

Description:- This project is aimed at the prevention and treatment of curable blindness, and is organised by various Clubs in the Rotary Districts of India

Further Information:- Eye camps are undertaken during the cooler months, that is from November to March and are normally held over 6 to 7 days. The number of operations per camp is limited to 50 patients so as to ensure the best possible patient care.

Under the supervision of the participating Districts, individual Rotary clubs conduct each eye camp utilising the services of volunteer Rotary doctors.

Cost:- The average cost to treat one patient is A\$20 which includes the above items.

The local Rotary clubs will contribute 50% of this cost, so for A\$10 you can provide the gift of sight to an otherwise blind person.

Hearing Aids for Hearing Impaired Students
RAWCS #55-2000/2001

Description:- The Rotary Club of Miryalaguda, District 3150, wish to supply aids to hearing impaired students in their area.

Further Information:- One hundred students are in need of hearing aids, the cost to each student being R2000, which is approximately \$20.US.

The Rotarians of Miryalaguda and the community are able to contribute 25% of the cost of each hearing aid, and would be most grateful for any support from Australian Rotary Clubs.

CLEAN Drinking Water
RAWCS #56-2000/2001

Description:- The Rotary Club of Mancherial, District 3150, is seeking support to provide four borewells in a large village near Mancherial.

Further Information:- Because of the extreme poverty levels in this village, the program cannot be implemented without outside aid. At the present time, the villagers trek several kilometres to carry water to their homes.

Cost:- Each borewell, which will supply water for 300 houses, costs approximately \$2000 US, and qualifies for a Matching Grant. The Rotary Club of Mancherial will supply 25% of the cost of each well.

Sponsorship of a Child
RAWCS #57-2000/2001

Description:- The Rotary Club of Madras South is a sponsor of the Sevasamajam Children's Home, which caters for about 250 children and is operated by a women's organisation, with the wives of the Rotarians being actively involved. The home provides food, clothing, protection and schooling for orphaned children aged between four and ten years.

Further Information:- Nine orphans have been sponsored by Rotary Clubs within Australia. There are many more waiting sponsorship. About 20 of the children are disabled, mostly from polio. Facilities at the home are sparse and basic.

The children write to their sponsors and this engenders a feeling of being cared for and wanted. It is very easy to become involved.

Cost:- A\$100 will sponsor a child for a year. A\$300 for a three year term.

Donations and Copies of Correspondence to:-
 Project Funding Contact, PDG George Golding,
 "The Attics" M/S 305 Seaview Road, BUNDABERG, QLD 4670

INDIA
Home for Aged People
RAWCS #60-2000/2001

Description:- The Rotary Club of Baramati intends to build and equip the first Aged Peoples Home in the area.

Further Information:- Aged people often outlive their younger relatives, and they are often left destitute.

Providing shelter and sustenance for such people has been a vision of the Rotary Club of Baramati. The project has already attracted a gift of land, and funds to build a pilot double unit, a small hospital now serving a growing community. The hospital is staffed by a resident doctor and provides free consultations from Rotarian doctors.

The residential units which house four people are being built in pairs with common kitchen and toilet facilities. The anticipated total cost of furnishings is A\$26,000.

The Rotary Club of Baramati has already raised A\$4000 with promises of more to come from local sources in support of this project.

Literacy Project Rotary
International District 3170
RAWCS #62-2000/2001

Description:- **Rotary International District 3170** is aware that India, with an average literacy rate of less than 35%, has a major problem. The rate is even lower in rural areas.

Further Information:- With the co-operation of the State Government, the Clubs of District 3170 aim to establish and equip an effective program in up to 100 schools.

The State Government, the 64 Rotary Clubs of District 3170 and local donations will provide the school buildings at a cost of A\$32,000 per school, and also provide teacher training. Assistance is required with the provision of classroom equipment, furniture and teaching materials.

Donor clubs will receive a project report from their school. A school that is fully sponsored by a Club, can be named after that Club, if so desired.

Cost:- A\$500 will provide teaching materials for eight class rooms, A\$500 for equipment needed to set up a school, A\$3,000 to furnish an eight roomed school, A\$4,000 will sponsor a school.

Provision of Cows for Destitute Women
RAWCS #63-2000/2001

Description:- **The Rotary Club of Bangalore Highgrounds** has undertaken this project called the "Kamadhenu Project" and seek to widen the scope of the project beyond their immediate community.

Further Information:- The Club has already donated 31 milk yielding cows at a cost of A\$7700 to rural women who are living below the poverty line.

Preference is given to widows and/or aged persons and the donation is intended to improve the living and economic condition of the women.

Special features of the project are:

- a) The cows are insured.
- b) The beneficiaries undertake to maintain the health of the cow whilst the Club arranges health checks.
- c) The first female calf born to the cow is given back to the Club so it can too be donated.

Each cow of good breed with high milk yielding capacity will cost about A\$450 and the Club aims to donate 10 to 15 cows per year.

Clean Water/Sanitation
RAWCS #64-2000/2001

Description:- **The Rotary Club of Visakha Ukkunagaram, District 3020** wishes to establish a Clean Drinking Water/Sanitation Project in Lemarthi Village, with a population of 1200 .

Further Information:- The village mostly houses poor agricultural and industrial labourers. Currently the village does not have a protected water supply or sanitation system.

The village administration will provide land, free of cost, and maintain the project. In addition, 25% of the total cost will be contributed by the villagers. A borewell contractor and members of the Rotary Club have pledged their services to the project. The youth of the village will also supply labor for the project.

Cost:- Total cost of the project is estimated at \$2200.US.

Village Water Supply
RAWCS #66-2000/2001

Description:- The Rotary Club of Vizianagaram Central and the local Community Agency have undertaken a project to supply a village with a population of 5000, with potable drinking water.

Further Information:- Most of the 5000 inhabitants of this village are agricultural or industrial labourers, at the lower end of the poverty scale. The land for this project will be supplied free by the local government agency, as will the electricity connection.

The Rotary Club members have committed themselves to this project, together with a cash contribution of \$1000 US. The total cost of the project, including borewell, storage tank, pipeline, and taps is estimated at \$4000 US. of which 25% will be supplied by the R/C of Vizianagaram.

School Furniture
RAWCS #71-2000/2001

Description:- The Rotary Club of Khamman proposes to equip Primary and Secondary Schools in the district with furniture for the students who currently sit on the floor holding a slate.

Further Information:- The club has a good record in management of recent projects to serve the many backward people in the area with a Jaipur Foot centre, a Rotary Village and several safe water distribution points in operation.

There are 162,390 students attending 1638 primary and 266 upper primary schools in some 36 Council areas in and around Khamman. Furniture is not provided by the government. To meet this need the Rotary Club proposes to equip 440 primary and 266 upper primary schools with benches and desks to seat two pupils each at a cost of only A\$4.00 each set. A sign carrying your club name can be fitted in an Andhra Pradesh classroom when you provide a full set of furniture (about 34 pieces).

Costs:- A\$50,000 will provide 12,360 sets of desks and benches. Clubs should consider furnishing at least one classroom at a cost of A\$136.

Jaipur Aluminium Foot Centre
RAWCS #72-2000/2001

Description:- The Jaipur Foot manufactured from plastic has been of great benefit to amputees, but the plastic used is subject to cracking and is difficult to repair. A new centre is being established to manufacture an aluminium insert for both the thigh and lower limb. With the plastic foot attached all sections are repairable.

Further Information:- The Rotary Club of Kolhapur Midtown has continued the work of providing amputees with an artificial limb that is not only light and serviceable but is repairable. This fine project has been guaranteed matching grant status and will apply for a Rotary Foundation Foundation grant. The District Governor has made US\$30,000 available to finance clubs matching with Australian clubs. The Jaipur Foot program has provided 250,000 prostheses to persons crippled through agricultural and industrial accidents. Support from Rotary clubs has extended across continents.

Costs:- Up to A\$15,000 is sought preferably in association with a matching Rotary Foundation Grant.

Rural Water Supply
RAWCS #75-2000/2001

Description:- The Rotary Club of Bhagyanagar wishes to provide a clean water supply for a small rural village of some 60 households with a total population of around 600 people. Residents are economically deprived daily agricultural labourers or small farmers and all live below the poverty line.

Further Information:- The Rotary Club has adopted the village Deval Venkatapur, 30 km from Hyderabad, in an attempt to provide the villagers with basic amenities. The aim is to provide a bore well, overhead tank, water treatment plant, and connecting pipelines to serve the village.

Cost:- Cost estimated by a chartered engineer is A\$8730, which includes drilling a bore well, provision of a 5HP pump, elevated 20,000 litre tank, water softening plant, and all necessary pipelines and fittings.

The Rotary Club of Bhagyanagar will contribute A\$750 and will participate in the project with the local village Administration. Estimated construction time is four months from commencement.

The project suits an application for a Rotary Foundation Matching Grant.

Calipers for Crippled Children
RAWCS Project # 76-2000/2001

Description:- The Rotary Club of Madras South has “adopted” the Children’s Home in Seva Samajan, in Chennai, and is providing artificial limbs to those in need.

Further Information:- These children, either orphaned, or abandoned by their parents have little prospect of ever living a normal life, unless fitted with an artificial limb. The Rotary Club of Madras South has undertaken to supply as many of the limbs as possible, but require assistance from Rotary Clubs elsewhere to complete the project as speedily as possible.

Cost:- A donation of A\$20 will provide an artificial limb for one child.

Mobile Micro Surgical Eye Unit
Bangalore District 3190
RAWCS #78-2000/2001

Description:- The Rotary Club of Bangalore proposes to obtain a motorised fully-equipped Micro Surgical Eye Unit built to today’s modern standards.

Further Information:- Eye camps throughout India are conducted in make-shift conditions in many instances, eg. school buildings under canvas, which are not suitable to maintain high medical standards, keeping dust levels to a minimum, and are a threat to infections of various nature. Therefore the Rotary Club of Bangalore is proposing to set up this mobile unit to provide hygienic areas and enable more people suffering from blindness and/or eye diseases to be treated in a shorter period of time.

The blind population is expected to double in the next five years.

Costs:- The monetary requirements initially are A\$3,400 with the hope of a matching grant from the Rotary Foundation to “kick-start” the project.

School Renovations
RAWCS Project # 80-2000/2001

Description:- The Zilla Parishad School in economically depressed Begumpet has been adopted by the **Rotary Club of Hyderabad Mega City**. The school receives scanty government grants inadequate to renovate the building which is in a very poor condition not suited to the provision of education.

Further Information:- The school caters for 1000 students and a staff of 30. The compound wall, roofing and flooring is in such bad condition that during the rainy season interiors are flooded necessitating frequent closure of the school. Members of the Rotary Club of Hyderabad Mega City plan to repair and renovate the school with the assistance of the local community and parents.

Cost:- The Rotary Club will contribute A\$1255 estimated total cost of A\$18,192 including:-

Renovation of walls	A\$5332
Renovation of roofs	A\$6273
Renovation of floors	A\$4705
Equipment - library, laboratory, furniture, sports etc	A\$1882

Contributions in units of A\$100 would be welcome.

Sanitation Project - Railapur Village
RAWCS Project #82 -2000/2001

Description:- **The Rotary Club of Hyderabad North** wishes to carry out a project to improve the sanitation in the village of Railapur, some 25 kms.from Hyderabad.

Further Information:- Over the past ten years the R/C of Hyderabad North has constructed a water supply and storage system for this village of 1500 people; has been involved in the establishment of a successful school; and takes an active interest in the welfare of the villagers generally.

The proposed project will have a centralised drainage system, with individual toilets for each household.

The villagers will provide 20% of the project cost in materials and labour. The local Municipal Administration will supply the land for the septic tanks and drainage lines and also technical support services.

Costs:- \$300 will provide a septic system for each house.

Sponsoring Education for Children
RAWCS #85-2000/2001

Description: Now a Rotary District 9640 programme operated by the **Salvation Army (Bala Keselamatan)** and **Rotary** for over twenty years to assist with the education of needy children.

Further Information:- Last year over 400 girls and boys have been helped by this project, with donations from Rotarians, Rotaractors, Interactors, Inner Wheel clubs, and many friends of Rotary.

“EDUCATION IS THE KEY TO EMPLOYMENT” and without an education, the youth will not have the opportunity to achieve their full potential, and therefore be precluded from gaining employment.

Visits have been made to many of the fifteen Salvation Army Homes on the Island of Bali, Java and Sulawesi. We have regular contact with the Army Headquarters at Bandung and receive letters from the majority of the children and Home Managers. You can be assured that your Donations are carefully used by the Army.

“THE EDUCATED YOUTH OF TODAY ARE THE LEADERS OF TOMORROW”.

Cost:- A\$110 will assist to keep a child at school for almost one year. Your Donation will be gratefully received and of course is TAX DEDUCTIBLE.
