Furniture - Equipment for Slum School
RAWCS Project #84 -2000/2001

Description:- The Rotary Club of Sullurpet, proposes to supply furniture etc. for a slum school.

Further Information:- Due to the poverty levels no furniture or equipment has been provided for this school. The Rotary Club of Sullurpet will contribute \$1,000 towards the total cost of \$2,000. Rotarians will provide the furniture and equipment and ensure the ongoing maintenance.

Cost:- \$2000 will equip this school with the necessary furniture and materials. This project is ideal for a small Matching Grant.

Sponsoring Education for Children
RAWCS #85-2000/2001

Description: Now a Rotary District 9640 programme operated by the **Salvation Army (Bala Keselamatan)** and **Rotary** for over twenty years to assist with the education of needy children.

Further Information:- Last year over 400 girls and boys have been helped by this project, with donations from Rotarians, Rotaractors, Interactors, Inner Wheel clubs, and many friends of Rotary.

“EDUCATION IS THE KEY TO EMPLOYMENT” and without an education, the youth will not have the opportunity to achieve their full potential, and therefore be precluded from gaining employment.

Visits have been made to many of the fifteen Salvation Army Homes on the Island of Bali, Java and Sulawesi. We have regular contact with the Army Headquarters at Bandung and receive letters from the majority of the children and Home Managers. You can be assured that your Donations are carefully used by the Army.

“THE EDUCATED YOUTH OF TODAY ARE THE LEADERS OF TOMORROW”.

Cost:- A\$110 will assist to keep a child at school for almost one year. Your Donation will be gratefully received and of course is TAX DEDUCTIBLE.

INDONESIA
Medical Help for Leprosy Patients
RAWCS #86-2000/2001

Description:- **The Salvation Army of Indonesia** provides leprosy patients with daily doses of vitamins, cod liver oil, together with necessary medication.

Further Information:- At Sungal Kundar, near Palembang, South Sumatra, the Salvation Army maintains a leprosy treatment centre, where more than 40 aged patients receive daily treatment.

A second centre for leprosy treatment is located at Semarang, Central Java.

Treatment consists of daily supplementary doses of vitamins and cod liver oil and, where necessary, prescribed medications. Medicines are now being purchased in bulk, from Bandung, this has resulted in a considerable cost saving with the added benefit that increased quantities of medication are now available and thus more patients are treated.

Cost:- A\$20 will treat one leprosy patient for 12 months, A\$100 will enable five patients to receive treatment for one year. The number of patients receiving treatment is directly related to available funds.

INDONESIA
Aid for Primary Schools
RAWCS #87-2000/2001

Description:- **The Salvation Army of Indonesia** operates twelve village schools. There is an ongoing need to provide basic equipment for these schools and where funds permit, to provide new schools.

Further information:- In both Sulawesi (Celebes) and Kalimantan areas of Indonesia, there is a shortage of both schools and equipment.

There is a shortage of such basic school equipment as desks, tables, chairs, blackboards, slates and slate pencils. At present in a number of these schools, the pupils have to sit on the ground, the more fortunate ones are able to sit on a floor.

In a number of areas of Indonesia, compulsory education is not enforced and because of a shortage of both schools and teachers, children go to school either in the morning or afternoon, but not both. The Salvation Army provides frequent reports on what equipment has been obtained when using RAWCS Funding (IPAC) contributions, along with photographs of the equipment being presented to the schools and pupils.

Adequate schooling is essential, for improving the literacy rate. Without a high percentage of literate people all other programs aimed at raising the standard of living and to establish birth control programs become all the more difficult if not impossible to implement.

Cost:- A\$20 will provide one desk, A\$100 will provide five desks and so on.

INDONESIA
Hare Lip Operation Project
RAWCS #88-2000/2001

Description:- This project is sponsored by the **Rotary Club of Kebayoran** and involves the surgical correction of either hare lip or cleft palates in children under five years of age.

Further information:- The operations are carried out by a Rotarian Surgeon PP Averdi Roezin, and others, from the Medical Faculty of the University of Indonesia, at the Panti Raharja Foundation, Ear Nose and Throat, Surgery Hospital.

Patients are from Jakarta and surrounding rural areas of Java. Surgeons who carry out these operations, cover hospitalisation charges and medical supplies, for the all inclusive cost of A\$150 per patient. More than 110 children have had these very serious facial disfigurements made good.

Babies who should be still breast feeding, find that after the operation they can now suckle for the first time in their lives. Babies that have to be bottle fed can suffer from both nutrition and diarrhoea, these problems are mostly caused by a lack of hygiene and incorrect baby food formulae.

Cost:- A\$150 will enable a baby to have corrective surgery for either a cleft palate or hare lip and thus be able to avoid both the psychological and physical problems that are associated with either of these conditions.

Mobile Eye Clinic
RAWCS #89-2000/2001**

Description:- A Rotary District 3400 Management Committee controls the financial support for the medical, scientific and technical back-up for the Mobile Eye Clinic for Cataract Surgery and for the Community Eye Diseases and Blindness Prevention Centre in Bali.

Further Information:- The Centre is staffed by Indonesian doctors and nurses who have benefited greatly from Rotary involvement in the transfer of medical technology and equipment from Australia and other countries. To date the project has restored sight to more than 13,000 poor blind people, and is conducting a blindness prevention program in primary schools.

Cost:- A\$50 is the cost of a cataract operation. Donations in multiples of A\$50 will be of great assistance.

Literacy and Numeracy
RAWCS #90-2000/2001**

Description:- The area of Tianyar in the district of Karangasem is one of the most economically depressed areas in Indonesia. The village of Munti Gunung with a population of 9,500 is situated on the steep rocky slopes of the extinct volcano Abang. This village has been chosen as the centre for a project in Literacy and Numeracy in 2000. Hundreds of street children in the tourist areas of Kuta Legian and Denpasar originate from this area.

Further information:- The project aims to support the village, by providing clean water with solar pumps and tanks (at present in the dry season each person has only two litres of water per day).

The Government now has re-roofed the school building, installed electricity and with a village work project will build an access road.

School furniture, teaching aids and teaching equipment have been made available in Australia and will be transported to Indonesia with the assistance of the RAAF.

A Literacy and Numeracy Project with emphasis on vocational outcomes will provide training for both school age and adult village groups.

Cost:- A\$70 will support a child or an adult within the project to receive specially structured Literacy and Numeracy education for one year. Multiples of A\$70 will be of great assistance.

**INDONESIA
Cleft Lip and Palate
RAWCS #91-2001/2002**

Description:- The project promoted by the Rotary Club of West Perth seeks to address the incidence of facial deformities so prevalent in the Bali area.

Further Information:- This active programme of cleft lip and palate repair is conducted at the Wangaya Hospital in Denpasar.

Over 1200 children have been assisted since 1989 and up to six children are operated on each week.

The project has already trained medical staff, provided equipment and, at the hospital base has it's own operating theatre.

Funding is generally sought to bridge the gap between the Rotary discount price and the actual hospital costs.

Cost:- The local available financial input is about \$1,000 AUD per month and the financial gap is about \$300 AUD per operation.
